

St John's Primary

PE and Sport Premium

The PE and sport premium is designed to help primary schools improve the quality of the PE and sport activities they offer their pupils.

St John's will receive approximately £18,000 this year to improve PE provision across the whole school.

Our aims when spending the PE and Sports Premium are to:

- increase children's engagement in regular physical activity – both competitive and non-competitive
- raise the profile of PE and sport across the school as a tool for whole school improvement
- increase the confidence, knowledge and skills of school staff in the teaching of PE and sport
- broaden the experience of PE and sporting activities for all our children
- increase participation in competitive sport

2017-2018

Action	Expected Impact
Provide a specialist teacher for gymnastics for two terms, for children in Years 3 – 6.	Skills of the teachers and the quality of the PE lessons will increase. Children will enjoy gymnastics and develop their co-ordination, balance and agility. An after school gym club will further engage and develop children's skills, particularly girls. The gifted and talented gymnasts will have the opportunity to take part in the Woking Area schools competition in December.
Provide sports coaching at lunchtimes.	Children will have access to more high quality, directed physical activities outside lesson time. This will become part of the '60 minutes per day' recommended level of physical activity for children, by the government's Chief Medical Officer.
Attend the Primary PE and School Sports Conference for Surrey	Gain information about the national developments for PE, sport and health initiatives. Keynote speaker Dr. William Bird leads on decreasing sedentary behaviour for all age groups, in order to positively impact on health. Network with local area providers of health and fitness opportunities.

Maintain our partnership with The Winston Churchill School and other local primary schools via the Woking Area Sports for Primary Schools 'WASPS' to offer our children more opportunities to participate in a wider variety of sports.	Increased opportunities for pupils to experience competitive physical activity in a variety of settings beyond our school grounds. St. John's to organise the local area Hockey Tournament.
Increase the number of active lessons at St. John's by incorporating 'Maths of the Day' into our planning and teaching. One staff member to receive the training on the package and lead on this initiative.	Fewer sedentary lessons in the week, more maths lessons which combine physical movement with mentally challenging and engaging maths.
Increase girls' attendance at after school sports clubs.	Provide a 'girls only' sports club after school with the intention of including girls who currently do not participate in an after school club.
Increase opportunities for KS1 children to participate in after school sport.	More engagement and understanding of the importance of PE with the younger children. Teacher knowledge and understanding improved about how to run an after school club, suitable for younger children.
Increase opportunities for an 'active break time'. Train a 'Sports Crew' to guide activities. Improve and add to some of the outdoor fixed equipment.	Sports Crew to engage more children in small, competitive games at break. Sports Crew to raise the profile and importance of active break times to their peers.
Use the St. John's site more effectively for orienteering and other outdoor activities by mapping the area.	A high quality map of the site, and orienteering points distributed across the site, will encourage and involve teaching staff and children in working outdoors, more actively, more often. A decrease in the sedentary nature of the week's lessons.
Ensure Silver Level of the Sainsbury's School Games Mark is maintained or exceeded.	High percentages of children at KS2 will represent the school across various sports at local area events. Greater numbers of children will attend an after school sports club – the perception of all children will be that sporting activity is for everyone, and inclusion will be a highly valued element of sport at St. John's.

PE and Sports Premium

2016-17

The PE and sport premium is designed to help primary schools improve the quality of the PE and sport activities they offer their pupils.

St John's will receive approximately £9,000 for 2016-17 to improve PE provision across the whole school.

Our aims when spending the PE and Sports Premium are to:

- increase pupil participation in sport – both competitive and non-competitive;
- improve the skill and expertise of school staff in the delivery of high quality sports teaching
- increase participation in a wider range of sports (e.g. gymnastics, golf)

2016-2017

Action	Impact
Provide a specialist gymnastics teacher for children in Years 3 - 6	Skills of the teachers and quality of gymnastics teaching further increased. Lessons increased teacher confidence and capacity to teach the subject. Children developed greater levels of core strength and skill from the gymnastics PE teaching. Twelve St. John's children competed in the Woking competition for gymnastics, with squad members from across all KS2 classes. The older children achieved second place and the younger ones achieved third place. An after school gymnastics club took place each week in the autumn term, run by a member of the teaching staff.
Provide a specialist teacher for rugby in the Autumn Term for children in Years 3 - 6	Teachers' understanding of progression of skills in rugby and ability to teach these increased. Children developed skills in rugby, as well as broader competitive and team skills. Intra school competitive games increased, as an 'end of unit' competition took place after the rugby set of lessons. Links are now made to Chobham Rugby Club. St. John's was represented at two local area competitions, held at the Rugby Club, against other schools. The results were good – with one team reaching a group stage final in the tournament. There was an after school rugby club for KS2, run by a teacher, which supported the development of our competitive teams.
Provide a specialist teacher for golf in the Spring Term for children in Years 3 - 6	This part of the PE support package did not happen, for logistical reasons.
Provide sports coaching opportunities at lunchtimes	Children had access to high quality physical activities, to develop their skills during lunchtimes.
Increase girls' attendance at after school sports clubs	Rugby, football and netball are now attracting more girls. A summer cricket club also attracted more girls.
Attend the Primary PE and School Sports Conference for Surrey	PE coordinator was able to establish a wider network of contacts and find out more about the opportunities across the county for our children. Inspiration about St. John's 'next steps' for PE provision was gained from

	<p>the keynote speakers. Links to local judo and squash clubs were made, and taster sessions for KS2 took place for both these sports, in the spring term, extending the breadth of understanding of sporting activity for all children.</p>
<p>Develop wider opportunities for gifted and talented children – visit to Guildford Sports Park climbing wall</p>	<p>Gifted and talented children represented the school across a variety of sports – football, rugby, netball, hockey, cricket, gymnastics, athletics and cross country. The netball team won their league, and the football team were unbeaten in their league matches. A climbing wall experience is booked for September for Years 4, 5 and 6 – to be delivered on site at St. John’s by Surrey Outdoor Learning Development team instructors.</p>
<p>Ensure Silver Level of the Sainsbury’s School Games Mark is maintained or exceeded</p>	<p>High percentages of children at KS2 represented the school across various sports at local area events. Greater numbers of children attended an expanding number of after school sports clubs – the perception of all children is moving towards one that believes sporting and physical activity is for everyone, and inclusion is increasingly a highly valued element of sport at St. John’s. The ‘B’ team element of the Sportsmark was the only aspect of ‘Silver’ that we didn’t achieve.</p>
